Experiences

ZS Associates

Associate Platform Professional Services

July 2025 – Present

- Enhanced executive and field dashboards by implementing detailed distribution split, segmenting SP, SD, and HUB shipment data into paid vs. free categories.
- Revamped a drug distribution dashboard by introducing new territory mapping and HCP tiering, enabling the client to identify high-potential prescribers, optimize outreach strategies, and redesign plans for low-performing regions

Platform Professional Services Internship

January 2025 – June 2025

- Streamlined a data pipeline for a pharmaceutical client, transforming raw transaction data into actionable KPIs, including HCP reach and patient journey insights.
- Automated client daily and weekly reporting processes by automating SQL pipelines, quality checks, alerts, and dashboard refreshes, resulting in 20% faster delivery and 30% reduction in operational costs.

Projects

Personalized Feedback for Mental Health using AI

- Developed an AI-driven system that maps facial expression and a self-reported questionnaire to combine their results and infer potential mental health issues, enabling a more data-driven and personalized evaluation of users.
- Implemented a virtual mental health counsellor leveraging LLM Llama 2 utilizing vector database and whisper AI, which tailors responses based on the patient's specific mental health condition, providing personalized response and creating a real-life interactive environment for the user.

Education

Shri Ramdeobaba College of Engineering

December 2021 – December 2024

BTech, Computer Science (Data Science)

GPA: 9.35

Skills

Database Management: SQL, Spark SQL, Oracle

Cloud: AWS, Snowflake

Visualization tools: Tableau, Power BI

Machine Learning Frameworks: Python, TensorFlow, Flask, Streamlit

Certifications

- Oracle AI certified Professional
- ThoughtSpot Professional Certification
